Profile Summary

Hi, I'm Amir, a full-stack developer with 4 years of experience and a Computer Engineering student. I build web apps with React and Next.js, back ends with Node.js, Express.js, Go, MongoDB and PostgreSQL, and mobile apps with Flutter. I enjoy turning ideas into clean, fast and user-friendly products, in English and Persian, and I keep growing through real projects and my own work.

Belami — E-Commerce Website

A Persian online store with a blog and a full admin panel for products, stock, orders, users and analytics. I was responsible for both the front end and the back end.

Tech: React, Express.js, MongoDB, Redux

Link: belami.ir

Draw — Exchange Rates Platform

A public exchange-rate website (Arabic, English, Kurdish) and an admin dashboard to manage prices. I built both sides.

Tech: Astro, Next.js, TypeScript, Zustand
